

**PRESS RELEASE**

*Banca Intesa and Eurizon Capital offer another possibility to their clients to increase their free assets*

**First Investment fund of Intesa Sanpaolo Group opened in Serbia**

**Beograd (September 14)** – In order to provide its clients with one more way to increase their own assets, Banca Intesa together with the Investment Fund Management Company Eurizon Capital ad Belgrade, in its product offerings introduced investing into investment funds. Eurizon Balanced Fund, the first open-end investment fund organized by ISP Group in Serbia, was founded under the auspices of and with the expertise of the Intesa Sanpaolo Group Parent company. In its business, this Fund will mainly focus on investing in securities of the safest Europe and global companies and economies.

By imparting a wealth of experience that Intesa Sanpaolo Group has in operations with the investment funds, the fund will help its clients to minimize the risk of investment through diversification and professional management of funds, to reach the investment liquidity through free disposal of the investment and gained profit, and a satisfying profit and convenient approach to global capital markets.

*“We believe that dynamic movements that are characteristics of capital markets demand a response in assisting clients to manage their resources adequately. Being aware of the fact that success and growth of our business is inextricably tied to the success of our clients, Eurizon Capital will manage the funds entrusted in accordance with the highest standards of the Group and activities, guided by the principles of ethics and interests of clients”,* said Dejan Milutinović, general director of the Investment Fund Management Company Eurizon Capital ad Belgrade.

Eurizon Balanced Fund, characterized by flexibility in managing and adapting to the complex conditions in the capital market, offers its clients stability and security at the expense of short-term and speculative profits. Good quality service, professionalism and expertise is guaranteed with the active presence of Eurizon Capital company, which at the level of Intesa Sanpaolo Group manages with over EUR 150bn worth value of clients' assets and investment funds.

With 25 years of experience and leadership position in the market of Italy and Europe, as well as presence in ten countries on three continents, Eurizon Capital wishes to enable its clients in Serbia to be part of global capital markets and to become part of a family of 1.6 million clients that invest in investment funds managed by Eurizon Capital, whose assets are over EUR 80 billion. In the region (Slovakia, Hungary and Croatia), investment fund management companies within the Group have 170.000 clients and manage over EUR 2 bn in funds.
