- 1) the User's authorization for execution of payment transactions does not specify the exact amount of the payment transaction;
- 2) the amount of payment transaction exceeds the amount the User could reasonably have expected taking into account their previous spending pattern, the conditions of the Framework Agreement and circumstances of particular case.

The Bank may require the User to provide evidence about facts relating to fulfilment of conditions from the paragraph 1 of this point, and the User may not refer to the condition under paragraph 1, item 2 of this point, if increased amount of the payment transaction was result of currency conversion at the agreed reference exchange rate.

The User may submit a request for refund within 56 (fifty-six) days from the debit date, and the Bank shall refund the full amount of the payment transaction to the User or to notify them on the reasons for rejecting the Refund request within 10 (ten) business days from the receipt of the request.

Should the Bank refund the User, but within the claim procedure administered in line with the rules of the card association, determine that the claim is unfounded, the Bank will, without any special consent of the User, debit the User's payment account for the amount of the unfounded refund.

If the Bank rejects the refund request, they shall, in the notification about the reasons for the rejection, notify the User about:

- 1) procedure for the protection of rights and interests of the User, including out-of-court resolution of disputes,
- 2) proceedings that could be initiated for the violation of provisions of the Law on Payment services, as well as
- 3) body responsible for conducting these proceedings.

The User has no right to a refund specified in paragraph 1 of this point, if the following conditions are met:

- 1) the User provided consent for execution of payment transaction directly to the Bank;
- 2) information on the future payment transaction has been provided or made available in the agreed manner to the User at least 28 (twenty eight) days before the due date by the Bank or the payee.

7. CONDITIONS OF USE OF DIGITAL WALLET

7.1. Activation, use and execution of payment transactions by Virtual Card

The User makes an agreement on provision of Digital Wallet service with the Service Provider. The Bank is not a party in the agreement, it does not and may not assume any rights and obligations from such agreement, may not be held liable for availability or the functioning of the service.

The User may register its business debit card in the Digital Wallet either through application of the Service Provider or through mobile banking application of the Bank, if supported by the Bank. Registration of a business debit card in Digital Wallet creates a Virtual Card which is subject to all conditions that are applied to the business debit card represented by the Virtual Card, all in accordance with the Framework Agreement concluded between the User and the Bank.

If the User has registered several payment cards in the Digital Wallet, he may decide on his own which of the cards will be used to initiate a payment transaction.

Approval for execution of payment transactions initiated through Digital Wallet, i.e. by Virtual Card is given by the User by holding a Mobile Device near POS terminal, i.e. by selecting the Digital Wallet as payment option at internet point of sale and entering personalized security elements, selected personally or agreed with the Service Provider. The Bank will debit the amount of the executed payment transaction to the payment account of the User connected to the registered business debit card. The User may receive information on payment transactions executed through Digital Wallet service not only from the Bank, but from the Service Provider, as well.

7.2. Expiry or restriction of the right of use of Virtual Card, replacement and/or renewal of business debit card

If the Framework Agreement under which the Bank issued a business debit card, which is digitally represented by a Virtual Card, is terminated for any reason, if the User stops using the business debit card or the Bank denies User the right to use the business debit card, the right to use Virtual Card will cease at the same time.

The Bank may permanently or temporarily block the Virtual Card due to reasons related to secure provision of payment services, suspected unauthorized use of Virtual Card and/or its fraudulent use. The Bank will inform the User on its intention and reasons to block the Virtual Card prior to the block and at the latest immediately after blocking the card, except if giving of such notice is contrary to objectively justified reasons of security or regulations. The Bank will allow a Virtual Card to be registered again after the reasons for blocking the card cease. Reasons to temporary or permanently block and/or prevent use of a business debit card, apply to a Virtual Card, as well. Business debit card being blocked causes the Virtual Card to be blocked, as well, while Virtual Card being blocked does not have to cause the business debit card to be blocked.

The Bank will prevent use of a Virtual Card in case that Digital Wallet service within which Virtual Card has been generated is no longer available for business debit cards it issues and the User will be timely informed on the matter.

The Service Provider may prevent use of Virtual Card for any other reason agreed with the User. In that case, the Bank may not and is not obliged to influence the Service Provider in terms of availability of Digital Wallet to the User.

In case of regular business debit card renewal, it is not necessary to reactivate the Virtual Card through Digital Wallet. In case business debit card is not collected, the Bank reserves the right to disable the use of Virtual Card in Digital Wallet. If the Bank, for any reason, replaces User's business debit card that has been registered in the Digital Wallet by a new business debit card (e.g. if the card is reported as lost), Virtual Card does not have to be reactivated through Digital Wallet.

Deletion of a Virtual Card from a Digital Wallet does not affect the possibility of use of a business debit card which Virtual Card is digitally represented. If after deletion of a Virtual Card from a Digital Wallet the User wishes to once again start using his business debit card as Virtual Card, he may reregister it in the Digital Wallet. Deletion of Virtual Card from Digital Wallet does not release the User from obligation to settle all liabilities created by such card before deletion.

Inability to use a Virtual Card due to the above listed reasons does not release the User from obligation to pay or make funds available on the payment account for payment of all liabilities arising from the use of business debit card and Virtual Card.

7.3. Security

By registering a business debit card in Digital Wallet on specific Mobile Device, the User assumes the obligation to use the Mobile Device with due diligence, as well as to take all reasonable measures to save and protect confidentiality of information stored on the Mobile Device, which have been agreed with the Service Provider, for giving approval for execution of payment transactions initiated through Digital Wallet and/or Virtual Card. Obligations related to handling of personalized safety elements of payment instruments, assumed by the User under Framework Agreement, apply to the Mobile Device and to this elements. All payment transactions initiated by Virtual Card will be deemed initiated by the User, except the user previously reported theft, loss or abuse of Mobile Device or its personalized safety elements for Mobile Device to the Bank. Liability of the Bank and the User in terms of payment transactions initiated by Virtual Card is subject to provisions of points 6.4 to 6.7 of GTC for payment cards.

The User undertakes:

- when creating personalized safety elements for Mobile Device and/or Digital Wallet, to act with due diligence and not select safety elements which could for any reason be guessed or connected to the User,
- to disable access to his Mobile Device by fingerprint or facial recognition of other persons,
- if, before entering into agreement on use of Digital Wallet and generation of Virtual Card, he set any safety elements on his Mobile Device, such as password, lock pattern or fingerprint recognition, to review them and change all safety elements that have been set in the manner that may be guessed by anyone and about which the User has already, directly or indirectly, provided information to other persons,
- if he suspects that his personalized safety elements for Mobile Device or any other safety element for Mobile Device access are known or may be known to anyone, to change such elements without undue delay, and in case of loss or theft of Mobile Device or suspected fraudulent use of Mobile Device or personalized safety element, to immediately notify the Bank in accordance with point 6.1 of GTC for business debit cards.

7.4. Fee for Digital Wallet services

The Bank has no influence on the fees charged by the Service Provider for the service provided by him or third parties that provided related services.

7.5. Processing of personal data and data on payment transactions initiated by Virtual Card

By registering the business debit card in Digital Wallet through mobile banking application, the Individual User authorizes the Bank to provide the Service Provider with his identification data and the data of debit card being registered, including the expiry date of the card, all for the purpose of conclusion of the agreement between the User and the Service Provider. The Service Provider is the personal data controller for personal data and as such he is responsible for lawful processing of personal data required for conclusion and performance of the agreement on use of Digital Wallet service, during the term of the agreement and after its expiry. The Bank does not influence and may not be held liable for the manner in which the Service Provider collects and processes data.

During the period of validity and use of Virtual Card the Bank provides the Service Provider with aggregate information on payment transactions initiated by Virtual Card for the purpose of performance of the agreement concluded between the User and the Service Provider.

Contracting and use of Digital Wallet includes safe transfer of information through electronic communication network, which availability is ensured by electronic communication service providers that may not be influenced by the Bank, including the electronic communication service provider of Individual User and User. The Bank may not be held liable for availability and proper functioning of such service, for transfer of data through these services from Service Provider to Mobile Device of the Individual User and vice versa or for archiving and storage of data on Mobile Device of Individual User/ User.
